PROFILE

Motivated, personable business professional with successful track record with both small businesses and large corporations. Diplomatic and tactful with professionals at all levels. Accustomed to handling sensitive, confidential records. Flexible and versatile – able to maintain a sense of humor under pressure. Thrives in deadline-driven environments. Excellent team-building and collaboration skills.

EXPERIENCE

FRONT-END DEVELOPER/SYSTEM ADMIN/QA TESTER
Defense Mobile / 2014 – present

- Responsible for the creation and maintenance of operational support systems including: Company internal Wiki (dokuWIKI), MVNO API documentation, Web chat modules for ecommerce and home sites, Store Locator API, Web UI rate table (intntl.defensemobile.com), Internal IT ticketing system and office human resource platform, RadioShack information kiosk prototype (Android-Linux), MiliCash/MiliSource production and development app servers and reporting systems, and Internal office data backup systems (Synology NAS w/ hypervisor virtualization config).

- Mobile system/APN seed testing: responsible for apple mobile iOS versions 7.1 to 9.2.1 and android Kit-Kat to Lollipop seed testing for compliance involving company MVNO mobile configuration/unit testing (iPhone v. 4s, 5s, 5c,6, 6s units – nexus 5, 6, 7 – Samsung s5, s6, s7).

LEAD FRONT-END DEVELOPER/DBA
Zingrevolution.com / 2013 – 2014

- Worked closely with the design, brand, and marketing teams to help guide and develop website features.
- Built and maintained client facing interfaces as well as the underlying JavaScript, HTML, and CSS
- Acted as a voice of technical expertise in broader discussions and initiatives.
- Planned strategic solutions for marketing and events related to product releases in conjunction with major creative licenses.
- Managed product and customer databases for web and reporting; migrated to noSQL(Mongodb) platform for ease of use and efficiency. Using stored procedures and normalization to decrease redundancies, created a 50% decrease in load/operation times.
- Migrated from apple server workgroup to full windows active directory network with consolidated NAS storage, saving the company $20k in contracting fees.
